

■ AI-ENABLED SMART COLLEGE ERP SYSTEM

OFFICIAL PORTAL LOGIN CREDENTIALS & SYSTEM ACCESS DIRECTORY

■ System Access Endpoints:

Web App Portal (Frontend):	http://localhost:5174
Backend REST API:	http://localhost:5000/api/v1
GitHub Repository:	https://github.com/yellapuramur-cmd/smart_collage_erp

■ Pre-Seeded Account Credentials (All Roles):

Role	Full Name	Email Address (Login ID)	Password	Department / Course	Portal Privileges
ADMIN	System Admin	admin@erp.com	admin123	System Wide	Full Admin Suite, Create Users, Timetable, Analytics
FACULTY	Dr. Ramesh Chander	ramesh@erp.com	password123	CSE (HOD)	Mark Attendance, Upload Marks, Study Notes
FACULTY	Dr. Sunita Kulkarni	sunita@erp.com	password123	ECE (Professor)	Electronics Attendance, Marks & Schedule
FACULTY	Prof. Rajesh Kumar	rajesh@erp.com	password123	IT (Assoc. Prof)	IT Lectures, Notes Upload & Grading
FACULTY	Dr. Meenakshi Sundaram	meenakshi@erp.com	password123	CSE (Asst. Prof)	OS & Cybersecurity Lectures
STUDENT	Aarav Sharma	aarav@erp.com	password123	B.Tech CSE (Sem 3)	Dashboard, Attendance, Marks, Submissions
STUDENT	Ananya Iyer	ananya@erp.com	password123	B.Tech CSE (Sem 3)	Transcripts, Schedules & Notes Downloads
STUDENT	Rohan Gupta	rohan@erp.com	password123	B.Tech CSE (Sem 3)	Student Portal & Fee Payment Receipts
STUDENT	Priya Nair	priya@erp.com	password123	B.Tech IT (Sem 3)	IT Dashboard & Subject Materials
STUDENT	Vikram Malhotra	vikram@erp.com	password123	B.Tech IT (Sem 3)	Student Assignments & Fee Management
STUDENT	Ishita Patel	ishita@erp.com	password123	B.Tech ECE (Sem 3)	ECE Student Portal & Class Schedule

■ How Admin Can Create New Student & Faculty Accounts:

1. Log in as **Admin** (admin@erp.com / admin123).
2. Click **Students Management** or **Faculty Management** in the sidebar navigation.
3. Click **+ Add New Student** or **+ Add New Faculty**.
4. Fill in the Full Name, Email, and **Login Password**.
5. Click **Create Account** ➔ The user profile AND their login credentials are saved live to MongoDB.
6. The newly created student or faculty member can immediately sign in at <http://localhost:5174/login>.

■ How to Run the Application in VS Code:

1. **Open Folder in VS Code:** File → Open Folder → c:\Users\admin\OneDrive\Desktop\collage
2. **Start Backend Server:** Open Terminal → cd server → node index.js (Port 5000)
3. **Start Frontend Client:** Open 2nd Terminal → cd client → npm run dev (Port 5174)
4. **Open Browser:** Navigate to <http://localhost:5174>
